EDUCATION

MEMORIAL UNIVERSITY OF NEWFOUNDLAND

Master of Science in Computer Science

Relevant Coursework: Advanced Software Engineering, Cloud Computing, Data Visualization

ST. JOHN'S , NL

Expected Dec 2026

SONA COLLEGE OF TECHNOLOGY

Bachelor of Engineering in Computer Science

First Class with Distinction | **GPA** : 3.83/4

Relevant Coursework: Database , Software Engineering; Operating Systems; Algorithms; Artificial Intelligence

SALEM, TN

Sep 2020 - May 2024

WORK EXPERIENCE

KAAR TECH

Student Software Developer

REMOTE

Jan2023 – Jul 2024

- Contributed towards the development of a **Sales Forecasting Application** using ML models to predict future sales.
- Integrated the application with **PowerBI** for visualization of the data.
- Engineered **Large Language Models (LLMs)** including **BERT** and **Attention Models** to analyze requirements and generate accurate dependency lists, improving performance by 40%.
- Reduced processing time from **5 to 3 minutes** by developing a **Flask API** with **Redis** Caching for data optimization.

VEE TECHNOLOGIES

IT Consultant Intern

SALEM, TN

Feb 2023 – May 2023

- Got trained in advanced **Robotic Process Automation(RPA)** Technologies
- Built a Bot that **automated repetitive tasks** by integrating several applications.
- Integrated the Bot with a real-time task enhancer software developed from scratch using Angular and TypeScript.

PROJECTS

DEVCONNECT – DEVELOPER NETWORKING PLATFORM

- Built a full-stack social networking app using **Java, Spring Boot and Hibernate**.
- Integrated **Supabase (PostgreSQL)** for authentication and real-time data.
- Designed UI with **Thymeleaf and Bootstrap** for a responsive experience.
- Allows developers to connect and collaborate.

TASKFLOW – TASK MANAGEMENT APP

- Developed a **Kanban-style** task management tool using **Java, React, and Drizzle ORM**.
- Implemented role-based access control and real-time task updates using tRPC.
- Optimized backend queries for better performance.

E-COMMERCE STORE – FULL-STACK WEB APP

- Created a responsive e-commerce platform with **Python, Next.js and PostgreSQL (Neon)**.
- Integrated **RESTful APIs and tRPC** for seamless data transactions.
- Implemented secure user authentication and payment processing.

SMART SHOPPING CART

- Developed an IOT-based smart shopping cart with GPS, Bluetooth and NFC for automatic following and smart payments
- Efficiently assisted customers with shopping, especially the elderly with a rating of 85% happy users.
- Used AWS for cloud data storage and ReactJS for interface.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, SQL, HTML5, CSS, C

Developer Tools: AWS, Postman, Git, Docker, Prisma, Supabase, PowerBI, Azure, Jira

Libraries/Frameworks: Spring Boot, ReactJS, NextJS, NodeJS, PostgreSQL, VueJS, Flask
